Walter, Patrick,

It is very important that I speak with you regarding the above status.

The City would very much like us to keep open the lines of communication. The lawyers have previously reached out to Brian and I believe we should connect as well. I'm raising to the attention of the RA because I believe the issues are broader than the technical issues alone. There's been some correspondence between EPA and developers' representatives. City Hall staff have asked me to reach out to you directly because of my familiarity with the issues. My goal is to reduce the temperature of the discussions between the parties.

I can make time today between 12 and 2:30 and again after 3:30. It's fine as well if I need to connect separately with you.

Much obliged,

Angela
